For One or Two Players

Master System Emulator™

The Mega Cartridge™

OK It's been a while...(Cough!)... 6 Years.....(Cough!) Since the last site update but well good things come to those that wait.....

I recently noticed that the Online Sega Master System Emulator's Java code had been depreciated and no longer worked in any web browser. So I have taken the opportunity to give the site a complete refresh and added an all new emulator....Ladies and Gentleman, I give you every Sega Master System ROM playable in the comfort of your own browser.

Enjoy! StalkS
